

If you are interested in aerial desailing, aerial cone collecting, or aerial grappling, check out our award-winning website:

**[www.coneharvesters.com](http://www.coneharvesters.com)**

The website contains colour photographs and detailed technical and descriptive information on dozens of topics, such as equipment usage, rental charges, and order forms.

If you are interested in using your helicopter to desail or collect cones and are not listed on our website, please contact us and we will add your name.

**This service is free** and allows foresters looking for aerial services to directly contact experienced helicopter companies.

*Specialized brochures are available for distribution to your forestry clients. To request brochures or for details and rates, call us or visit [www.coneharvesters.com](http://www.coneharvesters.com).*

# Looking for more work for your helicopter?

## Try aerial desailing.

Fandrich Cone Harvesters

Trees left standing next to a clearcut area are prone to being blown over. Fandrich Cone Harvesters has developed aerial desailers to reduce the resistance of the trees to wind.

Fandrich Desailers need helicopters to gain access to exposed trees. Aerial trimming reduces leverage and crown size to help trees remain upright even during exposure to excessive winds.

***Helicopters can desail more than 120 trees per hour.***

The two models of Fandrich Desailers reduce tree sail in different ways.

**Fandrich Delimbers** prune branches using helicopter lift.

**Fandrich Toppers**, powered by a Honda engine, can sever nine-inch-diameter treetops.

***Now that desailing equipment is available, more and more foresters will require aerial tree desailing for windthrow management. You can get experience in this new market by trying a Fandrich Desailer.***

#### **Cone Collectors:**

Find out if your clients want to collect cones this year using your helicopter. The following aerial cone collection equipment is available for rent:

- Fandrich Powerrakes
- Fandrich Shears
- Fandrich Branch Collectors
